

SmartStore™ Glass food storage container 0,25 L

SmartStore Glass is a range of versatile glass food storage containers that can be used for cooking, serving, storing and reheating food. Made from durable borosilicate glass, the containers can withstand high temperatures. The airtight plastic lids feature clips for a secure seal. The small 0,25 liter container is perfect for small snacks and baby food. Dishwasher- fridge-, freezer-, oven- and microwave proof (remove lid before microwaving or using in the oven).
