

SmartStore™ Glass food storage container 0,75 L

SmartStore Glass is a range of versatile glass food storage containers that can be used for cooking, serving, storing and reheating food. Made from durable borosilicate glass, the containers can withstand high temperatures. The airtight plastic lids feature clips for a secure seal. The 0,75 liter container is perfect for packing lunches or storing leftovers. Dishwasher- fridge-, freezer-, oven- and microwave proof (remove lid before microwaving or using in the oven).
